

Climate change DVD available

The Catholic Committee of Appalachia (CCA) will distribute a DVD called “Climate Change: Our Faith Response” to all 27 Catholic dioceses in the Appalachian region.

The 10-minute DVD is intended for religious education classes and comes with a study guide to underscore the church’s teaching about the care of creation and humanity’s responsibility for stewardship.

Funded in part by the U.S. Conference of Catholic Bishops, the DVD was produced from video footage of a teleconference discussing the morality of global climate change held in four locations around Appalachia in 2007.

For more information, contact CCA at 304-927-5798 or by e-mail at ccappal@citynet.net.
