Mrs. Renie Brown

(Calvert Hall)

Demonstrating Dedication to Students and Extracurricular Activities

Mrs. Renie Brown, Algebra II, Honors Programming, and AP Computer Science instructor at Calvert Hall, has been a leader in infusing technology into her classroom. Her goal is to give students the best individualized experience by using whatever is needed to differentiate within the classroom. As Calvert Hall stresses the importance of extracurricular activities in the growth of the whole person, Renie has worked humbly and tirelessly to produce one of the top robotics teams in the nation. As the Robotics moderator, Mrs. Brown focuses on teaching students the fundamentals of robot design, cooperative engineering, software coding, driver skills and game strategy. She is filled with a sense of dedication and mission.
