

Stunningly clear video of Pope's arrival in Madrid

MADRID- When Pope Benedict arrived in Madrid for his World Youth Day welcome address Thursday, Baltimore was at the front of the line. Want to see how good of a view we had? Check out this awesome video filmed by Will Warner, a parishioner of The Cathedral of Mary Our Queen. Will is an insanely cool person, who was my row buddy on our flight to Paris on this trip. He's also a student at Loyola Blakefield and is a skilled photographer for his age too. Despite a lot of pushing from people behind him, Will kept his cool and got this on film. What a moment for him and all the pilgrims of Baltimore.
