

Hello Students!

I'm a parishioner here at St. Francis, along with my husband, Mr. "C."  
Some of you may know him since he works in the parish, and I may be familiar to you because I volunteer in the church office on Thursdays.

I'm part of our parish Respect Life Committee and Principal Kim was kind enough to support a program we are excited to introduce to you today.  
You will be praying for unborn children throughout the school year, and doing some fun projects along the way.

There will be a display near the entrance to the lobby for you to see the development of babies in their mothers' wombs. Each month will be a new poster for the nine months it takes for a baby to grow. This way you look at the posters and pray for a babies in the womb during of the school year.

Just like we pray for people walking amongst us, we want to pray for and be aware of babies growing in their mothers wombs, who are worthy of our love and compassion.

We hope this will be a fun learning experience for you, resulting in an appreciation for the smallest precious babies growing in their mothers' wombs. We are all precious in the eyes of God Our Creator. God said in the Bible I knew you even before you were born.
